Equity research associate supporting FinTech and Digital Assets coverage at Rosenblatt Securities. Background in mathematics and data analytics; I build the models, datasets and tools behind the analysis. CFA Level I; FINRA Series 7 and 63.

EXPERIENCE

- Rosenblatt Securities, Equity Research Associate** New York, NY | Mar 2026 – Present
- Support the senior analyst's FinTech and Digital Assets equity research coverage across a 15-name universe.
 - Build and maintain company financial models and valuation work, and contribute company and sector analysis.
- Boston University, Metropolitan College, Visiting Researcher** Boston, MA | Feb 2026 – Mar 2026
- Studied the market structure of DeFi perpetual futures across 17 assets and 3 exchanges; built the dataset and an event-detection method for markets that trade 24/7. Published in the International Journal of Financial Studies (2026).
- Boston University, Metropolitan College, Research Assistant (part-time)** Boston, MA | Oct 2024 – Jan 2026
- Compared mean-variance and robust (MAD, IQR) portfolio optimisation across nine U.S. sector ETFs and 27 years of data; found rebalancing frequency matters more than the choice of risk measure. Accepted in Risks (2026).
 - Backtested momentum strategies in crude oil ETFs and futures (18 years) and a silver-to-Bitcoin cross-asset signal; both published in Stocks & Commodities (2025).
- Boston University, Teaching Assistant, Computer Science** Boston, MA | Jan 2025 – May 2025
- Held office hours, graded assignments and gave one-on-one guidance for an undergraduate computer science course.
- Fino Payments Bank, Data Analytics Intern** Navi Mumbai, India | May 2023 – Jul 2023
- Built the bank's first structured PySpark and SQL pipeline for 6,000+ government-sponsored financial schemes; segmented customers by transaction behaviour and developed a cross-sell strategy projected to double revenue, presented to senior leadership.
- Science Enrichment Program (GBSTA), Mathematics & Physics Teacher** Mumbai, India | Jun 2021 – Aug 2024
- Designed and taught advanced mathematics and physics to 25+ students a year preparing for the International Junior Science Olympiad.

PROJECTS

- Coinbase Global (COIN) equity research model, Excel, Bloomberg** Mar 2026
- Built a 14-tab three-statement model (FY2019A–FY2030E) across seven segments with a two-method DCF (FCFF and exit multiple), including Deribit purchase-price amortisation, a USDC revenue scenario matrix, and the fair-value accounting effects behind a GAAP net loss.

EDUCATION & CERTIFICATIONS

- Boston University, MS, Applied Data Analytics** Jan 2026
- Chennai Mathematical Institute, BSc (Hons), Mathematics & Computer Science** Aug 2024
- CFA Institute, CFA Level I** Passed Jan 2026
- FINRA / NASAA, SIE, Series 7, Series 63** Jul – Aug 2026
- University of Illinois (Coursera), Mergers & Acquisitions Specialization** Dec 2025

PUBLICATIONS

Shah & Pinsky, "Perpetual Futures in Decentralised Finance," International Journal of Financial Studies 14(7):178, 2026. Shah, Malhotra, Salotra & Pinsky, "Rebalancing Frequency Dominates Risk Proxy Choice," Risks, accepted 2026. Two articles in Technical Analysis of Stocks & Commodities, 2025.

SKILLS & AWARDS

Financial: Three-statement modelling, DCF, comps, M&A accretion/dilution, sensitivity and scenario analysis
Technical: Python, SQL, R, Excel (advanced, VBA), Bloomberg Terminal, Git
Awards: CFA Society Boston Candidate Scholarship (2025); KVPY Fellowship, All India Rank 318; INSPIRE-SHE Scholarship, Govt. of India (2021–24)
